

# Flame-Thrower®

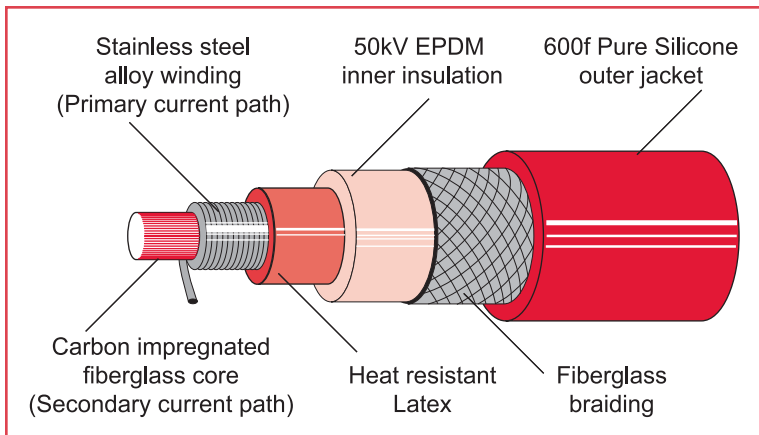

If your engine compartment needs that 8.0mm "high performance" look, our wires are available in universal sets for most applications, universal (with VW boot) for air cooled Volkswagen, and custom fit sets for HEI applications. Choose from black, red or blue, with white lettering, and 90, 45 or straight spark plug boots. The distributor boot angle is 90 degrees on all universal sets. Universal wire set comes with terminals and boots for both male and female style distributor caps.

## 8.0 MAGX2 MM Plug Wires

### Features and Specifications:

- Two current paths for reliability and redundancy.  
**Primary path:** Spiral wound stainless steel alloy.  
**Secondary path:** Carbon impregnated fiberglass center core.
- Low 500 ohm per foot resistance.
- Silicone jackets to resist high temperatures, moisture, oil and chemicals.
- EPDM (Ethylene Propylene Diene Monomer) rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks.
- Fiberglass reinforcing braid for added strength and flexibility.
- Lifetime Warranty
- Made in U.S.A.

# 7.0 STOCK LOOK MM Plug Wires

Now you can get a high performance wire with a stock look! We've taken our 8.0mm wire, which is designed to meet the demands of high performance engines, and offer it with exactly the same features in 7.0mm flat black. You can now have the best of both worlds "state-of-the-art high performance wire and a stock look." These wires have no lettering (except for our VW custom fit sets) and will fit the original wire looms. We offer custom fit sets for many Domestic cars and universal sets in 90 degree and straight boot angles. Our 7.0mm wire is available for air cooled Volkswagens in flat black "stock look", no lettering, and in blue, red or yellow, with "Flame-Thrower" lettering. All VW kits are custom fit kits.

## Features and Specifications:

- Two current paths for reliability and redundancy.  
**Primary path:** Spiral wound stainless steel alloy.  
**Secondary path:** Carbon impregnated fiberglass center core.
- Low 500 ohm per foot resistance.
- Silicone jackets to resist high temperatures, moisture, oil and chemicals.
- EPDM (Ethylene Propylene Diene Monomer) rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks.
- Fiberglass reinforcing braid for added strength and flexibility.
- Lifetime Warranty
- Made in U.S.A.
